Present mayor and aldermen hold office until July 1951. Vacancies are filled on recommendation of remaining aldermen. Town must pay $50 to county elections board chairman for services under act. Article 1. Schedule A. Inheritance Tax Article - Effective July 1, 1951:
(1) Corrects language in paragraph Second of G.S. 105-2 (dealing with situations in which state inheritance tax is due) so as to specify cases in which personal property has acquired a taxable situs here even though the decedent was a resident elsewhere at the time of his death. The section already covers the case as to real property and intangible personalty.
(2) Adds provisions to G.S. 105-2 to make the inheritance tax applicable when any personal property (including bonds of U.S., a state, or any subdivision or agency thereof) is received at a person's death by reason of that person's having entered into a contract or other arrangement with the U.S., a state, any person, or any corporation to pay, transfer, or deliver the property to the recipient whether the recipient is named in the agreement or not. In such cases the tax is not to be paid on any part of the personal property which was purchased or otherwise acquired by funds or property of the recipient or was acquired by completed inter vivos gift. Does not apply to proceeds of life insurance policies.
(3) Amends G.S. 105-3(d) (dealing with property exempt from tax) (a) to make exemption concerning proceeds of U.S. government life insurance apply to such proceeds when insured has served in armed forces in any military engagement subsequent to World War II and (b) to make the exemption apply to proceeds of any life insurance when insured's death was caused by enemy action in any military engagement subsequent to World War II in which the United States was involved.
(4) Amends G.S. 105-9 to raise the maximum allowable deduction for monuments from $500 to $1,000.
(5) Inserts G.S. 105-9.1 requiring that estate property be valued at fair market value at time of decedent's death, or, where a federal estate tax return is filed and estate representative elects to value on first anniversary of decedent's death, that method is to be used in filing state return and federal regulations apply to state return. If this election is taken, representative is given an additional 90 days in which to file return and pay tax.
(6) Amends G.S. 105-20 to provide that no lien for inheritance or estate taxes which accrued prior to May 1, 1938, shall attach to or affect land originally in the estate.

(b) If a contract is awarded to joint bidders, a new project license must be procured in the names of those to whom contract is awarded for full amount of contract price. This new project license is then valid for remainder of license year for same combination of bidders, but it is not valid for any one of the combination in other bid combinations.

Inserts in same subsection a provision that in determining the total amount of capital

stock, surplus, and undivided profits effect must be given to the final judgment of any court approving a corporate reorganization entered prior to July 1 of any calendar year and since the close of the reporting corporation's last calendar or fiscal year next preceding.

(5) Rewrites G.S. 105-149, par. 1(h) (grants additional exemption of $1,000 for the totally blind) to permit exemption upon presentation of certificate that such condition exists from the State Commission for the Blind or from an optometrist, as well as from a physician.

HB 845 - Introduced by Branch

"To rewrite Article 29 of Chapter 106 of the General Statutes relating to the inspection, grading and testing of milk and dairy products." [As title indicates. Jurisdiction to inspect, grade, and test milk products, under rules of State Board of Agriculture, is conferred on Department of Agriculture. Persons testing milk and cream for butterfat or milk fat content for sale purposes must obtain annual license from Commissioner of Agriculture, after passing examination conducted under Commissioner's direction. License fee and renewal fee is $2. After hearing, Commissioner may revoke license for licensee's failure to comply with Department's regulations. Commissioner is to make rules governing manner of testing (taking of samples, location for tests, length of time samples must be held after testing, etc.). In making butter fat tests, makes it a misdemeanor not to take a fair average sample of milk being tested. In using Babcock test, standard Babcock testing glassware, scales, and weights must be used; misreading and false manipulating of Babcock test or any other test used to determine butterfat content is made unlawful. Defines "adulteration" and "misbranded" as the terms apply to milk, dairy products, ice cream, frozen desserts, frozen confections, or any other products "which purport to be milk". Gives Department agents full power to inspect and take samples in all places of business in milk product trade, processing, or production. Such agents are empowered to issue "stop-sale" orders when provisions of article are apparently being violated or whenever agent has cause to believe a product for which standard of purity and of identity has been established is being adulterated or misbranded or has become contaminated. Stop-sale order prohibits further sale, processing, or distribution until defect can be corrected either by some process or by changing label. Products not in compliance with article are subject to seizure and, if court finds violation exists, it may order condemnation after owner has opportunity to apply for their release for correction. Violations of article and rules promulgated under it are punishable by fine up to $100 plus costs or by imprisonment up to 60 days, or both.] To Agriculture.

PUBLIC BILLS INTRODUCED -- SENATE

SB 491 - Introduced by Hobgood

"To provide for the use of blood tests as evidence to prove the degree of intoxication of a person charged with operating a motor vehicle while intoxicated." [Provides for blood tests of persons charged with drunken driving. If a physician or medical technologist in county of arrest has equipment to test weight of alcohol in a person's blood, and person agrees to submit and pay cost of test, arresting officer must take person forthwith to be tested. If county or municipality has equipment and physician or technologist available, every person arrested for drunken driving in such county or municipality is to be tested, where feasible. As soon as possible physician or technologist sends sworn signed statement of test to clerk of trial court, which is competent evidence, but refusal to submit to test is not admissible in evidence. If evidence shows .07% or less by weight of alcohol in defendant's blood, it is prima facie evidence defendant was not under influence of alcohol at time of test. In such cases receiving state takes over supervision of probationer or parolee in same way it supervises its own probationers or parolees. Sending state retains right to enter receiving state and retake such persons without having to comply with any formalities except to establish authority of official acting for sending state and identity of person to be retaken. Legal requirements to obtain extradition are waived on part of states signing compact as to such persons. If the receiving state has some criminal charge of its own pending against the person sought to be retaken by sending state, or suspects such person of a crime in receiving state, sending state is not to retake the person without consent of receiving state until person is discharged from prosecution or imprisonment for the offense.] To Judiciary 2.

PUBLIC BILLS INTRODUCED -- SENATE

SB 596 - Introduced by Medford

"To authorize the North Carolina Industrial Commission to hear and determine tort claims against state departments and agencies." [Constitutes Industrial Commission as court to hear tort claims which are now or may hereafter be filed against all state departments, institutions, and agencies, with an $8,000 maximum on damages awardable on any one claim. Claimants must file with Commission affidavit in duplicate, giving name of claimant, defendant department and employee, recovery sought, time and place of injury, and brief factual statement. Two-year statute of limitations is imposed. Commission must hold hearing in county where injury occurred unless the parties agree otherwise. Commission may appoint and fix salaries of deputies, who are given same powers now vested in Commission members to issue subpoenas, administer oaths, conduct hearings, enter written opinions, and make awards, G.S. 97-79(b) and 97-84 being amended accordingly. After determination of claim by either commissioner or deputy, either party may appeal to full Commission within 7 days, on the record and oral argument. Decisions of full Commission may be appealed within 30 days to superior court of county in which claim arose, with Commission having 60 days to prepare transcript of case record. Appeal to superior court is supersedeas, and is on errors of law only if any competent evidence supports Commission's findings of fact. Appeals to Supreme Court are as in ordinary civil actions. Claims may be settled by disputants on approval by Attorney General for agencies other than SH & PWC, and on approval of SH & PWC chief counsel for claims against that department. Commission approves all settlements. Attorney General represents all departments except SH & PWC at hearings, and upon docketing of claim, Commission sends either Attorney General or SH & PWC chief counsel one copy of plaintiff's affidavit. Commission is authorized to adopt regulations necessary, and $20,000 is appropriated for biennium, to carry out act. 257 claims presented to committee are listed in bill.] To Appropriations.
